2018 - 2022

### BS(CS)

**DIHE**

2013 - 2017

### ACCP PRO Diploma

**APTECH**

2012 - 2016

## SKILLS

React Native

Mobile Design  
Implementation

React JS

Node JS

PHP

## OBJECTIVE

In the Future, I want to see myself as a cross-platform mobile application developer using **React Native** or other technologies like **React JS**, **Vue JS**, **Node JS**, **Express JS** to be productive and provide some better value to the company with the combination of my experience and leading technologies. And to develop some practical solutions which help communities and businesses to make the world better for everyone.

## WORK EXPERIENCE

Sr. Software Engineer

09/2021 - Present

**Arpatech | Karachi**

As a react native developer my responsibility is to make well-structured front-end architecture and binding of APIS with the front-end structure to make things functional in App.

Software Engineer (PHP/Node JS | React native)

10/2019 - 09/2021

**Koderlabs**

As a backend and front-end developer in Koderlabs, my duties are to write backend code for their projects whether it is API or full web application. And also work as react native developer to make e-commerce app.

Software Engineer (PHP / Node JS)

09/2018 - 09/2019

**Golpik**

As a backend and front-end developer in Golpik, my duties are to write backend code for their projects whether it is API or full web application.

Associate Engineer (PHP)

03/2016 - 08/2018

**Devronix Solutions**

As a backend PHP developer in Devronix Solutions, my duties are to work with the CMS like Wordpress or Magento.
